Sanako Lab 100

Lab 100 is a unique digital language teaching solution which requires only a teacher computer. Students are equipped with digital recorder units that are easy to operate, and which allow them to participate in a number of stimulating learning activities, either alone, or in groups or pairs. Pre-set activities such as phone conversation and listening comprehension make it easy for the teacher to develop lessons. The Lab 100 offers tools that will keep your students motivated and excited while they acquire the language skills they need to develop both personally and professionally.

Sanako Lab 100 – Easy and Effective Language Lab

KEEP STUDENTS ENGAGED

Traditional classroom teaching has usually offered interaction between the teacher and only one student at a time, leaving the rest of the class idle and often uninvolved in the learning activity. Lab 100 provides language-learning activities and exercises to keep all students actively engaged.

DEVELOP STUDENTS' LANGUAGE SKILLS

With its exceptional audio quality, Sanako Lab 100 offers students the opportunity to develop their foreign language skills in an environment that is entertaining and stimulating, and promotes effective language acquisition.

PRACTICAL TOOLS

for developing Language Skills
- **Expose students to authentic language examples using diverse audio sources**
- **Guide and monitor students individually, or in groups or pairs**
- **Encourage student enrollment in language courses with stimulating programs**
- **Help students focus on comprehension and fluency of speech**
- **Enrich lesson content by accessing digital and Internet resources**

VERSATILITY MEETS HIGH PERFORMANCE

With its easy-to-use student digital recorder units and a teacher PC, Sanako Lab 100 is scaleable and versatile. It's the ideal solution for schools looking for a language teaching solution that makes use of multiple digital and analog audio sources to create a wide range of learning activities.

- **Simple, compact, robust - low maintenance requirement**
- **Installed in a small space, no special furniture, student computers or dedicated classroom needed**
- **Economical alternative to a full PC-lab**
- **Scaleable system accommodates up to 60 students**
- **Automatically converts analog material to digital format**
- **Facilitates student testing – AP® exam* (in the United States), grading, quizzes, recorded response**

other files to the web* for students to access online. By making classroom and home study material available on the Internet, teachers can more easily integrate classroom learning with independent study, giving students access to their learning material anytime, anywhere.

*School must have web server or access to web server to support files.

Set up a language lab within 5 minutes. Anywhere, anytime!

Available as an extension module, the Simultaneous Interpretation Training System (STS) was developed especially for the demanding field of professional interpreter training. It provides educators with digital recordings of student interpretations. Reviewing these long-lasting recordings helps tutors and students identify and correct weaknesses in their interpreting techniques to more effectively improve their skills. The collected recordings are also essential for research in the related field of Translation Studies.

PODCASTING

The Sanako Lab 100 includes a podcasting feature to help teachers make more digital learning material available to students. The solution allows teachers to easily upload digitized or existing MP3 material or

SPECIALIZED APPLICATIONS

Sanako has extended the range of capabilities of Lab 100 by introducing Sanako Lab 100 Cart . With the Cart solution, teachers can effortlessly transform any space into a full-featured mobile Lab.
